For a get together with a difference

You will shake up Martinis and sip down Bellini's whilst becoming better acquainted with your friends or colleagues.

Your evening will begin with an introductory demonstration from our resident mixologist, teaching you the basics of how to create and enjoy innovative cocktails made with the most interesting ingredients.

You will be shown how to shake, muddle and float cocktails from the classic to the funky, which you will later enjoy with a selection of canapés!

By the end of the evening you will have learned how to impress others with your ability to make a mean martini and more!

Cocktail Demonstration €35 per person
